

Most Trusted and Best Rated Quality Products

We have drawn from our many years of experience to develop a completely new generation of high-quality smoke alarm systems. Pyrex quality products are manufactured in Germany in compliance with the EU product standard EN 14604.

Furthermore, our devices comply with the requirements of the TUV and KRIWAN quality standards. In 2013 the German consumer foundation 'Stiftung Warentest' rated the PX-I as Germany's top rated long-term smoke alarm.

PX-I Stand-Alone Smoke Alarm

Reliable Protection Against Nuisance Alarms

The PX-I is a stand-alone smoke alarm complying with EN 14604, equipped with a built-in long-term lithium battery.

Our devices therefore do not require annoying and expensive battery changes. This represents just one of the many ways how we actively contribute to the protection of our environment.

Through the sensor-controlled safety mechanism, an alarm is triggered only if there really is concrete evidence of a fire. Pyrex products offer reliable protection against nuisance alarms.

For purchases from an authorised retailer or sales partner, we guarantee a defect-free device for a duration of 12 years.

PX-I smoke alarms comply with the requirements of the vfdB directive 14/01 and carry the German quality label „Q“ (more information about the „Q“ label and the vfdB directive on pyrex.com).

12 years

Room for Creative Individual Designs

High-quality smoke alarm devices from Pyrex unite modern electronics with innovative features, minimal casing dimensions, absolute reliability and timeless design.

The entire bottom cover of the casing is a test/stop button and can easily be reached and triggered e.g. in case of fire alarms.

Only Pyrex products can adapt their appearance to your wishes and requirements. This allows our smoke alarms to fit harmoniously into any individual room concept.

A colourful and unique Design Variety

Colours are an expression of human individuality and creativity. Your home is a clear symbol of your style, passion and personality.

To be able to do justice to any tastefully furnished home, Pyrex is the only manufacturer to offer quality smoke alarms in numerous colours and colour combinations.

Our extensive variety reaches from gold and silver to wood edition and Swarovski crystals®.

Swarovski crystals® and Gold-/ Silver-Design

Adhesive Mounting

Every smoke alarm device comes with a magnet carrier with an adhesive gel pad. With this certified mounting technology, all Pyrex Smoke Alarms can be firmly and reliably attached to virtually any ceiling surface structure, in compliance with the German user standard DIN 14676.

Every package includes an additional set of screws and dowels for drill based mounting of the smoke alarms.

Technical Specifications

Pyrex devices are all Made in Germany, in accordance with RoHS Directives and CE certificate

PX-I Stand-Alone and PX-IC Radiolink Smoke Alarm

Dimensions in mm (Ø x H) 105 x 38
